UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
REGION III  
2443 WARRENVILLE ROAD STE 210  
LISLE, ILLINOIS 60532-4352

SEP 04 2012

Allen R. Doan, PharmD.  
Radiation Safety Officer  
Hot Shots Nuclear Medicine  
2296 US 41 South  
Marquette, MI 49855

Dear Dr. Doan:

Enclosed is Amendment No. 04 to your NRC Material License No. 21-32812-01MD in accordance with your request. Please note that the changes made to your license are printed in **bold font**.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

**Please note that we did not approve Ms. Janelle L. Doan, CNMT as an authorized user to your license, as requested in your letter dated August 6, 2012, because no specific activities or functions were described that require an authorized user under your license.**

**Please note that, if Ms. Doan will not be performing functions under your license that require an authorized user, then we will be unable to add her to this license as a named individual.**

**For example, if Ms. Doan will be supporting the functions of the Authorized Nuclear Pharmacist and/or Radiation Safety Officer, these are functions for which NRC does not name authorized users to a commercial nuclear pharmacy license. Ms. Doan may work under the supervision of the ANP and/or RSO. There is no need to name her as an authorized user in order for her to perform these functions.**

Please see NUREG 1556, Vol. 13, Rev. 1, Section 8.7.3. at:

The enclosed document contains sensitive security-related information.  
When separated from this cover letter this letter is uncontrolled.

~~Official Use Only – Security-Related Information~~

A. Doan

If you determine that Ms. Doan will be performing functions requiring her to become an authorized user, in accordance with this guidance, please submit the responses requested by the guidance via written correspondence, addressed to my attention as “additional information to control number 578120.” We will then continue our review.

In addition, please note that the documentation provided for Ms. Doan was extraneous and must be protected pursuant to 10 CFR 2.390, especially her college transcripts. NRC never requests college transcripts to support individuals’ qualifications and specifically discourages their submission in its regulatory guidance.

Please also be reminded of the provisions in 10 CFR 30.9(a), “Completeness and accuracy of information,” ...“(a) Information provided to the Commission by an applicant for a license or by a licensee or information required by statute or by the Commission’s regulations, orders, or license conditions to be maintained by the applicant or the licensee shall be complete and accurate in all material respects.”

In accordance with 10 CFR 2.390 of the NRC’s “Rules of Practice,” a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC’s Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you.

This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions.

Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

The NRC’s Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency’s *expectations* for individuals and organizations to establish and maintain a positive safety culture.

~~Official Use Only – Security-Related Information~~

A. Doan

You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>.

We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

Sincerely,

Colleen Carol Casey  
Materials Licensing Branch
