Mr. Perry Robinson  
Vice President of Regulatory Affairs  
& General Counsel  
Louisiana Energy Services, LLC  
P.O. Box 1789  
Eunice, NM 88231

SUBJECT: REQUEST FOR REVIEW AND APPROVAL OF FUNDAMENTAL NUCLEAR  
MATERIAL CONTROL PLAN UPDATE REVISION 14 (TAC L34149)

Dear Mr. Robinson:

In a letter dated March 13, 2012 (Reference LES-12-00036-NRC), Louisiana Energy Services, LLC (LES) transmitted Revision 14 of the Fundamental Nuclear Material Control Plan (FNMCP). In its letter, LES also transmitted a proposed revision to License Condition (LC) 10.e to reflect the current revision of the FNMCP. The staff has completed its review, and our Safety Evaluation Report is attached as Enclosure 1.

The staff determined that the changes to the FNMCP are adequate and meet the measurement and measurement control program requirements of Title 10 of the *Code of Federal Regulations* (10 CFR) Part 74.33 (c)(2) and (3), and therefore, Revision 14 is approved. LC 10.e will be revised to reflect this current approved version of the FNMCP with the next major amendment. TAC L34149 is closed.

An Environmental Assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(11).

In accordance with 10 CFR 2.390 of the U.S. Nuclear Regulatory Commission's (NRC's) "Rules of Practice," a copy of this letter without the enclosure, will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records System component of NRC's Agencywide Documents Access and Management System (ADAMS) system. ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

This document contains Security-Related information. When separated from the Enclosure, this letter is decontrolled.
--

P. Robinson
