Lisle, IL 60532-4352

Re: NRC License #15-26803-01

Dear Mr. Hueter:

We would like to amend condition #10 of our license to read as follows; "Licensed material may be used or stored at the licensee's facilities located at 1200 SW Executive Drive, Topeka, KS 66615-3850 and may be used at temporary job sites of the licensee anywhere in the United States where the U.S. Nuclear Regulatory Commission maintains jurisdiction for regulating the use of licensed material." All other information remains the same.

We are closing our office at 3110 Karnes Road, St. Joe, MO as of September 14, 2012. We are currently storing the gauge in our Topeka office at the address listed above.

If you have any further questions, please contact me at 785-272-2252, ext. 282.

Sincerely,

A handwritten signature in cursive script that reads "Bruce A. Williams".

Bruce A. Williams,
Field Technician Manager &
Radiation Safety Officer
