Subject: conference memo - request

Kathryn,

I had my weekly 'alignment meeting' w/Bill and the other DEDOs today. One of my topics had to do with the OMB conference memo. Bill asked that you and your staff put some thought in to what ultimately will be at the heart of the memo to the Offices and Regions, specifically a balanced guide regarding offsites. We believe offsites – including those not in NRC space – are still of value, but there needs to be careful consideration about costs (inclusive of travel expenses).

After you've done some thinking, we should plan to spend a few minutes w/Bill soon to get alignment before we get too far down the road.

Thanks,
Darren
