Thanks. I think the actions listed below focused on conferences and mtgs ... However, I'm not sure they focused non-monetary awards such as pens, mugs, etc. Given that we previously ticketed the offices, and the current sensitivities, it seems to me that we should ticket ...

Not sure whether this applies to the NRC, but should we review/ticket the office(s) anyway given the sensitivities?

Thanks

Subject: Guidance on conference and travel spending

Dear Deputy Secretaries and Chiefs of Staff:

This note is to remind you of your responsibilities under OMB Memorandum 11-35, "Eliminating Excess Conference Spending and Promoting Efficiency in Government." This memorandum instructed all agency Deputy Secretaries "to conduct a thorough review of the policies and controls associated with conference-related activities and expenses." In conducting such reviews and certifying that the appropriate policies and controls are in place, agencies must ensure compliance with both the Federal Travel Regulation (FTR), which implements statutory directives and executive branch policies related to travel and conferences, and the Federal Acquisition Regulation (FAR), which governs Federal contracting for goods or services to support travel and conference activities, including contracts for facilities and for training services.

Please contact OMB's Office of Federal Financial Management (202-395-3993) if you have questions regarding this issue.

Thank you,
Cabinet Affairs
