Subject: Attachment to NRC Form 314 for Environmental Management Services, Inc.,  
NRC Radioactive Material License No. 04-29295-01

Dear Ms. Cook:

The following is in addition to the information submitted on NRC Form 314 for Environmental Management Services, Inc. (EMS), NRC License No. 04-29295-01.

**A. LICENSE STATUS**

EMS wishes to terminate its NRC license effective October 1, 2012.

**B. DISPOSAL OF RADIOACTIVE MATERIAL**

EMS was under contract with the U.S Navy through the U.S Army Joint Munitions Command (JMC) for providing waste brokerage services for project generated radioactive waste. EMS never possessed or procured radioactive materials under its NRC license while providing these services except for reference standards (check sources) used for operational testing of radiation detection and measuring equipment. These reference standards are currently being held under EMS's California Radioactive Material License #7329-07.

A letter dated, January 3, 2012, was sent to the NRC explaining that EMS was no longer performing NRC licensed activities at Hunters Point Shipyard as of December 9, 2011. A NRC form 532, dated January 12, 2012, was sent to EMS acknowledging the receipt of our January 3, 2012, letter and stating that there were no administrative omissions during the review. EMS has not conducted NRC licensed activities at any location since December 9, 2011.

Not applicable. The storage areas used by EMS while providing waste brokerage services were, and continue to be, under ownership of the U.S Navy. Also, the reference standards were exempt from the periodic leak test requirements set out in 10 CFR 39.35(e).

I hope the attached Form and this additional information are sufficient for NRC to respond to our request for termination of our current NRC Radioactive Material License effective October 1, 2012.

Please acknowledge receipt of this request and let me know if you have any question or need additional information regarding this license termination request.

Sincerely,
