Best I have is the 14<sup>th</sup> at 1-2pm or 3-4pm but Kathy and also Annie Kammerer would not be able to make it, the rest of the week would have even less people attending....

We'd be glad to drop in and discuss. However, I will be out of the office next week, the week after works better for me. Although the discussion can occur without me, I would like to be there. Thus I can ask Richard to arrange a meeting. Because of potential scheduling conflicts, who are required and who are optional on your end?

Mike and Stu would like to hear what is expected from SGSEB for the SOARCA project. We currently have one contract in place to gather some data to be used in the consequence analysis but it is only a small piece of what you want. In order to budget—both \$\$ and FTE—DE will need more info. Can you discuss with us (and bring any cognizant staff) next week?
