Jonathan,

I have attached the clean and compare files for your document: NUREG-1935: State of the Art Reactor Consequence Analyses (SOARCA) Project Appendix A (DRAFT) Peach Bottom Integrated Analysis (~277 double-spaced pages) (SOARCA_AppA_Rev3.docx) for Jonathan Barr, RES.

Please use the clean file for future revisions. The compare file details all recommended changes. The Author Notes file includes additional comments.

Please consider this e-mail evidence of technical editor concurrence with the suggested changes. The author may accept or reject any of these changes. Please feel free to contact QTE with any questions or concerns.
