Shawn,

I need a couple of things from you that I requested from you two weeks ago and some new things...(I'll give you a call about it later today).

1. A responsibility action matrix so that I can see who from Sandia (or your subs) is working on what (old request)
2. A status update on Appendix A, specifically from the teleconference on 11/15/10- Are we still on track to incorporating the information discussed into Appendix A by mid-december?
3. You scheduling followup phone calls this week to discuss the status of Appendix A fact check comments and Appendix B
4. A list of options for addressing the Surry ISLOCA (old-request as requested by Jennifer)

Most importantly I need to work with you to come up with a revised schedule that the SOARCA team can agree on for resolving fact check comments, peer review comments, and staff comments. I need to provide input to Jennifer by early next week on what a revised schedule will look like.

Sorry to spring a lot of this on you when you are back from vacation, but I was unable to reach your acting while you were gone.

Thanks,
Richard Chang
