Dan,

I talked to Jimi and I propose that we give the following milestones and dates for SOARCA (I am assuming we can update it as our plans change). Please note that this matches with the current comm. plan:

Finalization of SOARCA NUREG for public comment  
Dates: Now-January 31, 2011

Enter Public Comment Period  
January 31, 2011- March 2011

Address public comments  
March 2011- April 2011

Finalization of NUREG  
May 2011- June 2011

Please tell me your thoughts.

Thanks,  
Richard

**Subject:** RESPONSE REQUESTED: Graphics for Tracking SOARCA and Cancer Risk Studies

Richard and Terry,

If you could provide something by COB on Friday, I would really appreciate it.

As you can see in the below e-mail, very little guidance has been provided on the types of milestones that would be of interest at the EDO level. Since we are trying to develop a single graphic that highlights milestones for Level 3 PRA, SOARCA, and the Cancer Risk Study, I would think these would have to be kept at a very high level.

If you could please provide me with what you think would be appropriate for your respective projects by COB on Friday, I will integrate the three in a single graphic.

Please let me know if you have any questions, comments, or concerns.

Thank you!

Regards,  
Dan

**Subject:** FW: Charts/Graphics to Track Long-Term Projects

Richard/Terry,

Dan Hudson from DRA will be contacting you soon (if he hasn't already) about putting together a Gantt chart detailing the SOACRA, Cancer Study, and L3 PRA for the EDO's office. Attached is a sample of what they are looking for, please let me know if you have any questions.

Thanks,  
Kenneth

**Subject:** FW: Charts/Graphics to Track Long-Term Prjects

A new ticket has been issued to your Division:

Subject: Charts/Graphics to Track Long-Term Projects

Action: Please develop a graphic to track long-term projects in your division.

Due: November 16, 2010 to Pat Santiago

The ticket will be dropped off shortly.

Kevin

**Subject:** Charts/Graphics to Track Long-Term Prjects

Brian and Jim,

Mike would like all of the DEDMRT offices to develop graphics to track long-term projects. The purpose would be to make it easier to share how significant projects are tracking and facilitate communicating this information to the Commission and external stakeholders (OMB, Congress, Agreement States).

The format and appearance of these graphics would be up to the office. I attached an example of one prepared by NMSS to show key milestones for fuel facilities. For RES, Mike suggested starting with SOARCA, Level III PRA, and the cancer risk study. Mike indicated that he'll be looking to discuss this more at the next DEDMRT/OD monthly meeting and ask about progress.

When you have a chance, please let me know if you have any thoughts on this. If you have any questions, please give me a call.
