You won't believe it. I just found some hardcopy comments too. I'll walk them down to you. Where do you sit Richard?

Subject: Files on SOARCA BR

Richard, I finished going through all the comment files I have on the SOARCA BR and have attached them here. The file names explain whose comments they are. The one file titled Compiled Comments by Scott Burnell is the latest version of the BR under my watch that I have. It was at that point that we put it on hold pending other development with the project. I hope this helps some. Please let me know if you have questions.

Scott
