Subject: Suggested Paths forward

Jimi,

I would like your thoughts on a few things:

1. Fact check comments-

Recommendation: Once all of the plant fact check comments are incorporated for Appendices A&B, hold a daylong meeting with you, me and the Sandia team to go through all of the staff comments with the technical staff to let them know how each comment was taken care of and the rationale. This is similar to your idea, except we would go through and discuss the resolution of comments in more detail, and have Sandia explain why they made certain choices. After this meeting, fact check issues will be closed.

Another option: Move forward with your original recommendation and have staff with issues with their comment resolution talk to you directly and have senior management discuss their rationale on higher level issues.

2. Brochure-

Recommendation: Send out an e-mail to the Communications Team (only) asking them to provide comments on the brochure by a certain date. This will help keep comments on the brochure down so we can move forward on it. It would also let technical staff keep working on completion of the main report. Please note that because Surry's results came in the other day, it may change the conclusions and timing in the brochure.

Another Option: Send it out to the entire SOARCA Team

Another Option: It appears that the comments incorporated from the technical staff were primarily from Jocelyn, we could incorporate your comments and Randy's comments and move forward

As an FYI- We just received Surry's response, so we will see how long incorporating their response will take us.

Thanks,

Richard Chang
