Hello Richard,

Attached is urgency statement format. Per our meeting w/ PMDA, can send funds to carry project 30 days.

For other examples of wording for urgency statements, search G drive "urgent."

According to MD 11.7,

Urgency. Urgent work is work that is needed and should be accomplished as soon as practicable so as to avoid an adverse impact on the public health and safety regarding the civilian use of nuclear power, or on the agency's mission designed to ensure that the civilian use of nuclear power is safe. This determination is made by the cognizant NRC division director or designee.

MD 11.7 Handbook, Section 2.7.1.5 Urgent Requirements
Section 2.7.2 Procedures for Placing Urgent Requirements

I hope this information is helpful as you prepare the urgency statement. I will prepare the checklist and Form 173.
