See below. Mike Weber suggested that RES give an update on SOARCA at the EDO management meeting a week from tomorrow. These briefings are usually high level, and have an allotted time limit of about 15 minutes max. Given the short amount of time, I envision a briefing as follows:

- 1.) What is SOARCA?
- 2.) Why are we doing it?
- 3.) What did we do and what are the results?
- 4.) What are the remaining steps to complete it?
- 5.) What is the schedule?
- 6.) What are the next steps after we complete SOARCA?

Can I get someone to pull together a set of slides based on the above? Given the short time allotted and the high level of the briefing, I figure I will just give it.

Good morning, Lance. I suggest the following topics:

- SOARCA update – RES (timed to coincide with release of the draft study to the Commission and in advance of its release to the public)
- Rulemakings Today and in the Future – FSME (or NRR) – what trends are we observing as we respond to Commission direction and stakeholder input and what are the implications for planning and budgeting rulemakings in the future
- Program Management Council update on the Rightsizing Overhead Project – Cindi Carpenter

Thanks
