

DOCKETED
USNRC

September 14, 2012 (3:00 p.m.)

OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

Dear Sir or Madam 9/12/12

I live in Bronxville, NY. I
urge you to reject Entergy's
application to renew the license
for nuclear reactors, IP-2 and
IP-3 at Indian Point in Buchanan,
NY.

There have been numerous

serious accidents in the plant -
It is built on a geological fault
line, evacuation is impossible
if there were to be a terrorist
attack or earthquake... countless
reasons as to why this plant
ought to be closed!

It is too great a risk for
the residents of NY to have this
plant running.

Please close it down!

Sincerely, Leslie Pizel
