SAVE THE DATE: FEMA RAC Chair Conference Call- Thursday Oct. 28th at 11AM Eastern time

I believe I had spoken to you about FEMA HQ's desire to have periodic calls that would include the headquarters and region staff for both FEMA and the NRC. We would like to have the first of those calls on Thursday, Oct. 28th where Randy Sullivan will make about a 20 min. briefing/Q&A session on SOARCA. He will focus on how we model offsite results.

Vanessa typically schedules any NRC items at the beginning of the call and then we would just all hang up when our participation is finished and the RAC Chairs will continue with their normal discussion items with FEMA HQ. Even though I set this appointment for an hour, **I would estimate that it wouldn't take more than 30-45 minutes for our portion of the call.** If you have any items of mutual interest that you would like to have me include on the agenda for this discussion please let me know.

FEMA will share the bridgeline number and pass code when it is closer to the date. I will get each of you those details once they are available, but I wanted you to have the date/time now so you could add it to your schedules.

I hope you will be able to join us.

Thanks

LisaG
