Kathy,

If it is okay with you, instead of providing the slides to you tomorrow, I will wait until closer to the next briefing so that they are as current as possible.

Thanks,  
Richard

Please note, a SOARCA briefing is no longer on the Agenda for the October 15 EDO Monthly Management Meeting. Brian is checking to see if it will need to be on the December agenda in light of the fact that Regions will get a more in depth briefing on SOARCA before December as part of the schedule.

Thanks,  
Andrea

Richard Chang is our new SOARCA PM. He will work with the SOARCA team to pull together slides for you. Monday is a holiday, so we will shoot for COB Wed. That will give you/us Thurs to review and finalize.

Does that work?

See below. Mike Weber suggested that RES give an update on SOARCA at the EDO management meeting a week from tomorrow. These briefings are usually high level, and have an allotted time limit of about 15 minutes max. Given the short amount of time, I envision a briefing as follows:

- 1.) What is SOARCA?
- 2.) Why are we doing it?
- 3.) What did we do and what are the results?
- 4.) What are the remaining steps to complete it?
- 5.) What is the schedule?
- 6.) What are the next steps after we complete SOARCA?

Can I get someone to pull together a set of slides based on the above? Given the short time allotted and the high level of the briefing, I figure I will just give it.

Good morning, Lance. I suggest the following topics:

- SOARCA update – RES (timed to coincide with release of the draft study to the Commission and in advance of its release to the public)
- Rulemakings Today and in the Future – FSME (or NRR) – what trends are we observing as we respond to Commission direction and stakeholder input and what are the implications for planning and budgeting rulemakings in the future
- Program Management Council update on the Rightsizing Overhead Project – Cindi Carpenter

Thanks
