---

**Description of project activities:**

This was a time critical project. Investigated the crash remains and debris of MH-53 helicopter. Performed radiological surveys of items and areas for the presence of fixed and loose surface contamination. No contaminated items or areas were found during the investigation above the release limits.

---

**Waste Management and disposition:**

Waste materials (7 IBIS's and ice detector source) were packaged into DOT approved containers and transported to Camp Carroll in South Korea for temporary storage for pickup and disposal at a later date.

---

**Final Survey Results Summary:**

N/A

---

**Complications/Unexpected encounters with radioactive materials:**

N/A
