5. IP 71151	12/23/11	IP 71151	09/26/12

TRAINING: No.

REMARKS: IMC 0608, "Performance Indicator Program," has been revised due to a significant rewrite of the questions and feedback section and the flowchart. New guidance was added on the white paper process and considerations for developing new PIs. Some background information was removed because it was redundant to and contradicted with IMC 0308. Clarified other portions of guidance, and incorporated ROP FBF 0608-1622.

IMC 1245 App C-12, "Safety Assessor Training and Qualification Journal," has been updated to add in specific ISAs and OJTs.

IMC 2606, "Assessment of the Change in Risk Resulting From a Violation at a Fuel Cycle Facility," is an initial issuance to provide direction assessing change in risk due to a violation at a fuel cycle facility.

IMC 2606 Enclosure 2, "Evaluation Based on Specific Licensee ISAs," is an initial issuance to provide direction assessing change in risk due to a violation at a fuel cycle facility.

IP 71151, "Performance Indicator Verification," has been revised to relocate guidance from IMC 0612 proper on documenting the scope of PI verification inspections, as well as clarified that an ROP FBF is not required to initiate the FAQ process.

DISTRIBUTION: Standard.

DISTRIBUTION: IMC 2606 Enclosure 2 has been designated as containing "Official Use Only – Copyright Information," and is therefore not available to the public. For information on this IP, please contact Booma Venkataraman at 301-492-3179.
