DATE & TIME: Wednesday, October 17, 2012

PURPOSE: To conduct a pre-submittal meeting with BWROG members of the TSTF regarding an upcoming Traveler to replace operations with the potential for draining the reactor vessel (OPDRV) requirements with technical specifications (TS) on RPV water inventory. The new TS will be based on meeting the safety limit that requires the RPV water level to be above the top of the fuel at all times, which will replace the need for OPDRV requirements. There is no meeting agenda because the meeting is an open dialogue.
