Jason,

I agree with you. I tried to ask for an extension and got rejected.

Thanks,
Richard

Richard,

My schedule is clear both of the weeks you mention below.

I have reservations about having DEDO and TA briefings in late February or early March, as it will distract the SOARCA team (including you) from completing the analysis and documentation (i.e., tasks 1-18).

Thanks,
Jason

Charlie and Jason,

I had previously sought to have the DEDO and Comm TA briefs be after the RIC. After asking Mike Weber for an extension, he still wants to be briefed prior to the RIC. Jason and I talked to Kathy about this and she told us that we should brief the Comm TAs before the RIC as well to save time. As an added measure to save time the topics for the DEDO brief and Comm TA brief would be: RIC slides and Schedule extension. Your roles, if you are available, would be to answer technical questions if they come up.

So I guess my questions are:

1. What is your availability for the week of the 21st for the DEDO brief and 28th for the Comm TA brief?
2. Are you okay with this proposal- the topics were designed to allow you guys time to focus on the technical work and not need to run around getting okays with slide changes.

Thanks,
Richard

Draft language (are you going to check with Jason/Charlie?):

Greg,

With that direction we would like to shoot for the week of February 21st for the DEDMRT brief and the following week (February 28th) for the Commission TAs.

Thanks,
Kenneth

I heard back from Mike. He wants his briefing to happen before the RIC. He stressed that he doesn't need anything fancy and that you don't need to prepare slides for him. He's really just interested in anything that's changed since the last briefing and current challenges. He also offered to come over to Church Street, rather than have you guys come to OWFN, if that makes things easier.

Greg,

The SOARCA staff is swamped with various items including preparing for the RIC would it be possible to brief the DEDMRT and Commission TAs after the RIC? Would sometime in early April work?

We are tentatively on the hook for 2/28/11

Thanks,

Kenneth Armstrong
