I believe the SOARCA session is at 10:30 on the 10th... I will reconfirm that time this week.

March 10th I believe. Richard – what time is the SOARCA RIC session?

Thanks

Great! Let me know. If you are at the RIC anyway and available during that session, you could also deliver the talk.

I will be out of town supporting an ASLB hearing, so currently Richard or Jason is on the hook to talk to the slides.

I did know about the session. I'll look the slides over, there is also a fairly good chance I'll be at RIC.

Hi Patrick,

I meant to cc you on this last week.

FYI, at the RIC conference this year there will be a SOARCA session, including a ~15 min. talk on the uncertainty analysis plan.

Attached is a rough first cut at the UA plan slides, which I mostly cut-and-paste from your slides for the Oct. SOARCA peer review meeting.

Also FYI, Randy Gauntt is slated to give a separate talk at the same session on phenomenological uncertainty.

I welcome any comments you may have on the attached slides.

Thanks, and hope all is well,

Tina

Hi Randy,

I have attached a very rough first cut at UA plan slides for the RIC.

Please let me know if there is too much overlap with what you want to cover, and I will revise accordingly.

Also please send me any comments and suggestions.

Richard – don't worry, once we have ironed the content of the slides, I will put it in correct format for you and include sufficient notes that someone else can speak to them. I welcome any initial feedback you have.

Thanks both,

Tina
