Subject: SOARCA-Level 3 PRA Path Forward

Richard,

In the attached document, I made an initial attempt to capture the considerations, advantages, and disadvantages associated with DRA's proposal to submit the Level 3 PRA SECY paper by 6/30, with preliminary input from SOARCA.

I propose using the same approach to capture the considerations, advantages, and disadvantages associated with DSA's proposal to extend the Level 3 PRA SECY paper to coincide with the proposed SOARCA completion date of 12/15 and provide the Commission with a single recommendation regarding whether and how to proceed with SOARCA and Level 3 PRA.

If you're available, we can get together today to refine our draft, so that we can provide it to our respective management teams by COB today.

Please let me know if you have any questions, comments, or concerns.

Best,
Dan
