October 1, 2012

TO: JENNIFER BISHOP  
U.S. NUCLEAR REGULATORY COMMISSION

This letter confirms that:

1. Our 3440 Troxler gauge is a Cesium source and Americium source.
2. The newly issued NRC license should be for 2 Troxler model 4640 and 2 Troxler model 3440.

Thanks for your help with this matter.

Sincerely,

Diane M. Green  
Executive Vice President  
Safety & Human Resources
