No problem...in regards to the current plan, if we stick to it, we likely will not be impacted much because we should be in the tail end of finalizing the main report.

Thanks,
Richard

We need to look at the soarca plan and these leave things in the next weeks...perhaps someone else can do this if we need Jason for soarca as they have 3 teams....also (b)(6) at (b)(6) so we need to get dates to ensure no problems....i suspect you and I and tina will take leave around the soarca project.
thanks

FYI. I am a Severe Accident Analyst on the Ops Center's Reactor Safety Team. So, I will be involved in the May 16-20 exercise.

When will you be starting work on SOARCA?

Thanks,
Jason
