Okay,

I will set up the bridgeline. I do not know if I will be able to make the meeting...I need to have another conference call with Bob Prato about the Surry site visit during that time.

Thanks,
Richard

Tina
[(b)(6)] but am glad that you're able to work from home.
I agree, 2 hours may not be necessary – it's a placeholder for scheduling meetings with Dr. Eckerman. The meeting purpose is to have an open discussion on what the SOARCA team needs. Participation by Nate Bixler sounds like a good idea.
So, please set up the conference call bridge line and coordinate with the SOARCA team for attendance, and then let me know next steps for the 1:00 call. I would normally offer to help, (b)(6)
(b)(6)
Tony

Importance: High

Hi Tony,

(b)(6) and working from home today.
Would it be possible for me to participate by phone?
FYI, I am not sure to what extent Jason will be able to participate, and I know Richard needs to leave early.

Question -- will this be more of an open discussion on status/needs, or is Keith planning to tell us about what he has done thus far?
Depending on what Keith wants to share with us, we may not need the full 2 hours.
I was also hoping to tie in Nate Bixler from Sandia on the phone for part of the call.

Let me know what you think.

~~*~*~*~*~*~*~*~*

All,

I have scheduled this time so that we can meet with Keith Eckerman to discuss his work on evaluating the SOARCA dose coefficients.
