### Hope Creek-New Freedom

Ordered Span	Wetlands	Wetlands Buffer	Waterbody Name	Riparian Buffer	Plant of Concern	Combined Work Window	Federal Species	Federal Work Window	State Species	State Work Window	Field Survey	Comments
01/01-01/02												
01/02-01/03	Exceptional	150 Feet				September 1 to December 14			Bald Eagle, Bald Eagle Foraging	September 1 to December 14		No Maintenance
01/03-01/04	Exceptional	150 Feet	Uncoded Tributary	25' Riparian Buffer		September 1 to December 14			Bald Eagle, Bald Eagle Foraging	September 1 to December 14		No Maintenance
01/04-02/01	Exceptional	150 Feet	Uncoded Tributary	25' Riparian Buffer		September 1 to December 14			Bald Eagle, Bald Eagle Foraging	September 1 to December 14		No Maintenance
02/01-02/02	Exceptional	150 Feet				September 1 to December 14			Bald Eagle, Bald Eagle Foraging	September 1 to December 14		No Maintenance
02/02-02/03	Exceptional	150 Feet	Uncoded Tributary	25' Riparian Buffer		September 1 to December 14			Bald Eagle, Bald Eagle Foraging	September 1 to December 14		No Maintenance
02/03-02/04	Exceptional	150 Feet	Alloway Hope Halfway	25' Riparian Buffer		September 1 to December 14			Bald Eagle, Bald Eagle Foraging	September 1 to December 14		No Maintenance
02/04-03/01	Exceptional	150 Feet	Uncoded Tributary	25' Riparian Buffer		September 1 to December 14			Bald Eagle, Bald Eagle Foraging	September 1 to December 14		No Maintenance
03/01-03/02	Exceptional	150 Feet	Uncoded Tributary	25' Riparian Buffer		September 1 to December 14			Bald Eagle, Bald Eagle Foraging	September 1 to December 14		No Maintenance
03/02-03/03	Exceptional	150 Feet	Hope Creek	25' Riparian Buffer		September 1 to December 14			Bald Eagle, Bald Eagle Foraging	September 1 to December 14		No Maintenance
03/03-03/04	Exceptional	150 Feet	Uncoded Tributary	25' Riparian Buffer		September 1 to December 14			Bald Eagle, Bald Eagle Foraging	September 1 to December 14		No Maintenance
03/04-04/01	Exceptional	150 Feet	Uncoded Tributary	25' Riparian Buffer		September 1 to December 14			Bald Eagle, Bald Eagle Foraging	September 1 to December 14		No Maintenance
04/01-04/02	Exceptional	150 Feet	Uncoded Tributary	25' Riparian Buffer		September 1 to December 14			Bald Eagle, Bald Eagle Foraging	September 1 to December 14		No Maintenance
04/02-04/03	Exceptional	150 Feet	Uncoded Tributary	25' Riparian Buffer		September 1 to December 14	swamp pink		Bald Eagle, Bald Eagle Foraging	September 1 to December 14		No Maintenance
04/03-05/01	Exceptional	150 Feet	Uncoded Tributary	25' Riparian Buffer		September 1 to December 14	swamp pink		Bald Eagle, Bald Eagle Foraging	September 1 to December 14		No Maintenance
05/01-05/02	Exceptional	150 Feet				September 1 to December 14			Bald Eagle, Bald Eagle Foraging	September 1 to December 14		No Maintenance
05/02-05/03	Exceptional	150 Feet				September 1 to December 14			Bald Eagle	September 1 to December 14		No Maintenance, Bald Eagle Nest Buffer around 5/2 only
05/03-05/04	Exceptional	150 Feet				September 1 to December 14			Bald Eagle, Bald Eagle Foraging	September 1 to December 14		No Maintenance, 5/4 located in Bald Eagle foraging buffer
05/04-06/01	Exceptional	150 Feet				September 1 to December 14			Bald Eagle, Bald Eagle Foraging	September 1 to December 14		No Maintenance, 5/4 located in Bald Eagle foraging buffer
06/01-06/02	Exceptional	150 Feet	Uncoded Tributary	25' Riparian Buffer		September 1 to December 14			Bald Eagle, Bald Eagle Foraging	September 1 to December 14		
06/02-06/03	Exceptional	150 Feet	Uncoded Tributary	25' Riparian Buffer		September 1 to December 14	swamp pink		Bald Eagle, Bald Eagle Foraging	September 1 to December 14		
06/03-06/04	Exceptional	150 Feet	Uncoded Tributary	25' Riparian Buffer		September 1 to December 14	swamp pink		Bald Eagle, Bald Eagle Foraging	September 1 to December 14		
06/04-07/01	Exceptional	150 Feet				September 1 to December 14			Bald Eagle, Bald Eagle Foraging	September 1 to December 14		
07/01-07/02	Intermediate	150 Feet										
07/02-07/03	Intermediate	50 Feet										
07/03-07/04	Intermediate	50 Feet	Uncoded Tributary	25' Riparian Buffer			swamp pink					
07/04-08/01	Intermediate	50 Feet					swamp pink					
08/01-08/02	Intermediate	50 Feet					swamp pink					3/4 of span mainly herbaceous
08/02-08/03	Exceptional	150 Feet				September 1 to December 14			Bald Eagle	September 1 to December 14		Two-thirds of span from woods line to 8/1
08/03-08/04	Exceptional	150 Feet	Little Creek UNT	25' Riparian Buffer		September 1 to December 14			Bald Eagle	September 1 to December 14		
08/04-09/01	Exceptional	150 Feet				September 1 to December 14			Bald Eagle	September 1 to December 14		
09/01-09/02	Exceptional	150 Feet	Little Creek UNT	25' Riparian Buffer		September 1 to December 14	swamp pink		Bald Eagle	September 1 to December 14		
09/02-09/03	Exceptional	150 Feet				September 1 to December 14	swamp pink		Bald Eagle	September 1 to December 14		
09/03-10/01	Exceptional	150 Feet				September 1 to December 14	swamp pink		Bald Eagle	September 1 to December 14		
10/01-10/02	Exceptional	150 Feet				September 1 to December 14	swamp pink		Bald Eagle	September 1 to December 14		
10/02-10/03						September 1 to December 14			Bald Eagle	September 1 to December 14		
10/03-10/04		150 Feet				September 1 to December 14			Bald Eagle	September 1 to December 14		
10/04-11/01						September 1 to December 14			Bald Eagle	September 1 to December 14		
11/01-11/02						September 1 to December 14			Bald Eagle	September 1 to December 14		
11/02-11/03	Exceptional	150 Feet	Little Creek UNT	25' Riparian Buffer	Plant of Concern on Site	September 1 to December 14	swamp pink		Bald Eagle	September 1 to December 14		Span is wetland from base of slope north of Hamersville road to 11/4
11/03-11/04	Exceptional	150 Feet				September 1 to December 14			Bald Eagle	September 1 to December 14		Small wetland near 11/2 only
11/04-12/01						September 1 to December 14			Bald Eagle	September 1 to December 14		
12/01-12/02						September 1 to December 14			Bald Eagle	September 1 to December 14		
12/02-12/03	Exceptional	150 Feet				September 1 to December 14			Bald Eagle	September 1 to December 14		
12/03-12/04						September 1 to December 14			Bald Eagle	September 1 to December 14		
12/04-13/01						September 1 to December 14			Bald Eagle	September 1 to December 14		
13/01-13/02	Exceptional	150 Feet				September 1 to December 14	swamp pink		Bald Eagle	September 1 to December 14		
13/02-13/03	Exceptional	150 Feet	Deep Run	25' Riparian Buffer		September 1 to December 14			Bald Eagle	September 1 to December 14		State Owned Property
13/03-13/04	Exceptional	150 Feet				September 1 to December 14	swamp pink		Bald Eagle	September 1 to December 14		State Owned Property
13/04-14/01	Exceptional	150 Feet				September 1 to December 14	swamp pink		Bald Eagle	September 1 to December 14		State Owned Property
14/01-14/02	Exceptional	150 Feet				September 1 to December 14			Bald Eagle	September 1 to December 14		14/1 In State Owned Property
14/02-14/03						September 1 to December 14			Bald Eagle	September 1 to December 14		14/3 in wetland area only
14/03-14/04	Exceptional	150 Feet				October 16 to December 14	Bog Turtle, swamp pink	October 16 to March 31	Bald Eagle	September 1 to December 14		14/5 in wetland area only
14/04-15/01	Exceptional	150 Feet				October 16 to December 14	Bog Turtle, swamp pink	October 16 to March 31	Bald Eagle	September 1 to December 14		Wetland at base of slope
15/01-15/02	Exceptional	150 Feet	Carlsle Run	25' Riparian Buffer		October 16 to December 14	Bog Turtle, swamp pink	October 16 to March 31	Bald Eagle	September 1 to December 14		Very small wetland associated with stream
15/02-15/03	Exceptional	150 Feet	Cedar Brook	25' Riparian Buffer		October 16 to December 14	Bog Turtle, swamp pink	October 16 to March 31	Bald Eagle	September 1 to December 14		Very small wetland associated with stream
15/03-15/04		150 Feet				September 1 to December 14			Bald Eagle	September 1 to December 14		
15/04-15/05	Exceptional	150 Feet				October 16 to December 14	Bog Turtle	October 16 to March 31	Bald Eagle	September 1 to December 14		
15/05-15/06	Exceptional	150 Feet				October 16 to December 14	Bog Turtle	October 16 to March 31	Bald Eagle	September 1 to December 14		
15/06-15/07	Exceptional	150 Feet				October 16 to December 14	Bog Turtle	October 16 to March 31	Bald Eagle	September 1 to December 14		Small wetland area near 15/4
15/07-16/03	Exceptional	150 Feet				September 1 to December 14			Bald Eagle	September 1 to December 14		
16/03-16/04	Exceptional	150 Feet				September 1 to December 14			Bald Eagle	September 1 to December 14		Very small wetland area near 16/2
16/04-17/01	Exceptional	150 Feet				September 1 to December 14			Bald Eagle	September 1 to December 14		
17/01-17/02	Exceptional	150 Feet				October 16 to December 14	Bog Turtle	October 16 to March 31	Bald Eagle	September 1 to December 14		
17/02-17/03	Exceptional	150 Feet	Cool Run UNT	25' Riparian Buffer		October 16 to December 14	Bog Turtle, swamp pink	October 16 to March 31	Bald Eagle	September 1 to December 14		Wetland on one third of span toward 17/2
17/03-17/04	Exceptional	150 Feet				September 1 to December 14			Bald Eagle	September 1 to December 14		
17/04-18/01	Exceptional	150 Feet				September 1 to December 14			Bald Eagle	September 1 to December 14		
18/01-18/02						September 1 to December 14			Bald Eagle	September 1 to December 14		
18/02-18/03						September 1 to December 14			Bald Eagle	September 1 to December 14		
18/03-18/04	Exceptional	150 Feet				October 16 to December 14	Bog Turtle, swamp pink	October 16 to March 31	Bald Eagle	September 1 to December 14		
18/04-19/01												
19/01-19/02												
19/02-19/03												No Maintenance
19/03-19/04	Intermediate	50 Feet	Wentzel Wilson Pond	25' Riparian Buffer								No Maintenance
19/04-19/05	Intermediate	50 Feet				October 16 to March 31	Bog Turtle	October 16 to March 31				No Maintenance

Hope Creek-New Freedom

Ordered Span	Wetlands	Wetlands Buffer	Waterbody Name	Riparian Buffer	Plant of Concern	Combined Work Window	Federal Species	Federal Work Window	State Species	State Work Window	Field Survey	Comments
19/05-20/01												No Maintenance
20/01-20/2												No Maintenance
20/02-20/03												No Maintenance
20/03-20/04												No Maintenance
20/04-21/01												No Maintenance
21/01-21/02												No Maintenance
21/02-21/03												No Maintenance
21/03-21/04	Intermediate	50 Feet				October 16 to March 31	Bog Turtle	October 16 to March 31				No Maintenance
21/04-22/01	Intermediate	50 Feet	Palatine Branch	25' Riparian Buffer		October 16 to March 31	Bog Turtle	October 16 to March 31				No Maintenance
22/01-22/02	Intermediate	50 Feet				October 16 to March 31	Bog Turtle	October 16 to March 31				No Maintenance
22/02-22/03	Intermediate	50 Feet										No Maintenance
22/03-22/04	Intermediate	50 Feet										No Maintenance
22/04-23/01		50 Feet										No Maintenance
23/01-23/02												No Maintenance
23/02-23/03	Intermediate	50 Feet										No Maintenance
23/03-23/04		50 Feet										No Maintenance
23/04-23/05	Intermediate	50 Feet										No Maintenance. Appears to be agricultural wetland in center of span
23/05-24/01	Intermediate	50 Feet	Muddy Run UNT	25' Riparian Buffer		October 16 to March 31	Bog Turtle, swamp pink	October 16 to March 31				
24/01-24/02	Intermediate	50 Feet	Muddy Run UNT	25' Riparian Buffer								
24/02-24/03	Intermediate	50 Feet										No Maintenance
24/03-24/04	Intermediate	50 Feet	Muddy Run UNT	25' Riparian Buffer		October 16 to March 31	Bog Turtle	October 16 to March 31				No Maintenance
24/04-25/01	Intermediate	50 Feet	Muddy Run UNT	25' Riparian Buffer								Appears to be small wetland in center of span
25/01-25/02	Intermediate	50 Feet	Muddy Run UNT	25' Riparian Buffer		October 16 to March 31	Bog Turtle, swamp pink	October 16 to March 31				Small Pond in span, 100% wetland
25/02-25/03	Intermediate	50 Feet					swamp pink					Appears to be wetland area in center of span, had limited access
25/03-25/04	Intermediate	50 Feet	Muddy Run UNT	25' Riparian Buffer		October 16 to March 31	Bog Turtle, swamp pink	October 16 to March 31				
25/04-26/01	Intermediate	50 Feet				October 16 to March 31	Bog Turtle, swamp pink	October 16 to March 31				
26/01-26/02	Intermediate	50 Feet				October 16 to March 31	Bog Turtle, swamp pink	October 16 to March 31				
26/02-26/03		50 Feet										
26/03-26/04												No Maintenance

Notes:  
 Bog Turtle is listed as a species under Federal and State Species. This listing restriction is only included in the Federal work window.

### Hope Creek-New Freedom

Ordered Span	Wetlands	Wetlands Buffer	Waterbody Name	Riparian Buffer	Plant of Concern	Combined Work Window	Federal Species	Federal Work Window	State Species	State Work Window	Field Survey	Comments
--------------	----------	-----------------	----------------	-----------------	------------------	----------------------	-----------------	---------------------	---------------	-------------------	--------------	----------

If Bog turtle, swampy park or small woodrat polygons are listed for a span a field survey is required  
 If a salamander or tree frog species is noted, avoid vernal ponds  
 While plants communities of concern are listed, they have not been calculated into the given work windows. Discuss with supervisor  
 No maintenance in areas flagged as swampy park habitat  
 For Federal Listed Plant Species - Maintenance should be conducted in the late fall and winter - after plant growing season  
 Special Note: For spans with sensitive plant species - if maintenance is required - set mowers at 6 inches and no herbicide use in the span  
 Matrix last updated on 12/30/10 and includes all field surveys conducted in 00/10, 10/10, & 12/10

Notes  
 bog turtle is listed as a species under Federal and State Species. The listing restrictions are only calculated in the Federal work window.  
 If Bog turtle Swamp Pink or small whitefish pike is listed for a span, a field survey is required.  
 If a number of bog frog species is listed, avoid wetland areas.  
 While plants communities of concern are listed, they have not been calculated into the given work windows. Decide with supervisor.  
 No maintenance is recommended as sensitive plant habitat.  
 For Federal Listed Plant Species - Maintenance should be conducted in the late fall and winter - after plant growing season.  
 Special Note: For spans with sensitive plant wetland - if maintenance is required - set mower at 6 inches and no herbicide use in the span.  
 Matrix last updated on 12/30/19 and includes all field surveys conducted in 06/10, 10/10 & 12/16

Notes

Bog Turtle is listed as a species under Federal and State Species. The timing restrictions are only calculated in the Federal work window. If Bog Turtle, Swamp Pink or Small Whorled Pogonia is listed for a span, a field survey is required.

If a salamander or true frog species is noted, 3-2-0-0 wetland ponds.

When plants, communities of concern are listed, they have not been calculated into the given work window. Discuss with supervisor.

No maintenance in areas flagged as swamp pink habitat.

For Federal listed Plant Species - Maintenance should be conducted in the late fall and winter - after plant growing season.

Species Note: For spans with sensitive plant values - if maintenance is required - not mow/ 2' 6 inches and no herbicide use in the span.

Maina last updated on 12/20/10 and includes all field surveys conducted in 06/10, 10/10, & 12/10.

51/04-APFR	Intermediate	150 Feet					american chaffseed					
APR-01/1												No Maintenance

Notes:  
 Dog Turf is listed as a species under Federal and State Species. The timing restrictions are only outlined in the Federal work window.  
 If Big Turf, Swamp Pink or Small Yellowed Pogonid is listed for a span, a field survey is required.  
 If a waterfowl or tree frog species is listed, avoid wetland ponds.  
 While plants communities of concern are listed, they have not been calculated into the given work windows. Discuss with supervisor.  
 No maintenance in areas flagged as swamp pink habitat.  
 For Federal Listed Plant Species - Maintenance should be conducted in the late fall and winter - after plant growing season.  
 Special Note: For spans with sensitive plant species - if maintenance is required - set mower at 6 inches and no herbicide use on the span.  
 Matrix last updated on 12/30/10 and includes all field surveys conducted in 09/10, 10/10, & 12/10.
