**Re: Entergy Nuclear Operations, Inc. (Indian Point Nuclear Generating Units 2 and 3), Docket Nos. 50-247-LR and 50-286-LR**

Dear Members of the Licensing Board:

Pursuant to the Board's October 7, 2011 Order (Procedures for Evidentiary Filings), Entergy Nuclear Operations, Inc. ("Entergy") submits the following revised exhibits.

Entergy is submitting a revised version of its testimony on contention NYS-5 regarding buried piping, ENTR20373. The revised testimony includes a corrected version of Figure 2 (IPEC Buried Piping That is In-Scope for License Renewal and That Contains, or May Contain, Radioactive Fluids). The correction is editorial. Specifically, the corrected Figure 2 includes the Unit 2 and Unit 3 floor drains (yellow lines), which Entergy discussed in the associated testimony (*see* pages 27, 35-36) but inadvertently excluded from Figure 2. Entergy made no other changes to the testimony, tables, or figures.

Entergy is also submitting a revised exhibit list (ENTR60001), which reflects the change described above.
