Dear Ms. Jacobs:

The purpose of this letter is to confirm the final arrangements for the upcoming operator licensing examinations at Waterford 3.

The NRC has completed its review of the operator license applications submitted in connection with this examination and separately provided a list of approved applicants to John Signorelli, Facility Representative. Note that any examination waivers and application denials have been addressed in separate correspondence.

The NRC has approved the subject examinations and hereby authorizes you to administer the written examination in accordance with NUREG-1021, "Operator Licensing Examination Standards for Power Reactors," Revision 9, Supplement 1, on October 10, 2012. The NRC staff administered the operating tests during the week of October 1, 2012.

Please contact your Chief Examiner, Brian Larson, at (817) 200-1172, if you have any questions or identify any errors or changes in the license level (RO or SRO) or type of examination (partial or complete written examination and/or operating test) specified for each applicant.

Sincerely,

A handwritten signature in black ink that reads "Vincent Gaddy".
