RE: License #04-07845-04 Radiation Safety Committee

Dear Ms. Hill:

The purpose of this letter is to update your records with our current Ionizing Radiation Safety Committee (IRSC) membership. **No amendment is requested or required for these changes as the Radiation Safety Officer and the Committee Chairperson have not changed from those listed on our license.**

The changes were made to specify the construction engineering representative was a consulting member only and does not vote on Committee business, to change the contract health physicist to Don Mercado due to personnel changes, and to specify that this member only votes when acting in the capacity of Radiation Safety Officer when duly designated due to the Radiation Safety Officer being unavailable due to leave or travel.

If you have questions pertaining to this letter, feel free to contact me at (650) 604-3979.

Sincerely,

A handwritten signature in blue ink that reads "Patrick S. Muldoon". The signature is fluid and cursive.
