Re: USNRC Material License No. 13-00133-02, Control No.: 578158

To Whom It May Concern:

Please accept this letter as a request to add two Authorized Users for non-medical uses of radioactive material. This request is to add Becky Hoberty, B.S., and Erin Bell, M.H.P. as Authorized Users under Item 6.H and 6.G of our license, for use of a cesium-137 sealed source, not to exceed 165 mCi and a barium-133 and cobalt-57 reference sources for calibration and quality control of radiation detection equipment.

Both individuals have been trained in the safe handling of the sources, safety and security concerns with use and storage of sources, leak testing and inventory requirements, as well as general radiation safety concerns. Both individuals are monitored with whole body and extremity dosimetry to assure exposures as low as reasonably achievable and compliance with 10 CFR 20.1502.

If you have any questions or concerns, please contact our Radiation Safety Officer, Edward E. Wroblewski, MA, DABSNM at 317.338.9498 or via email at eewroble@stvincent.org.
