Subject:

Pending Expiration of NRC License

**(NOTE: This will be used as the
Documents Title in ADAMS)**

10/10/2012 (12:40) I left a message on Mr. Chen's voice-mail for him to get back in touch with me concerning the pending expiration of the NRC license. (15:30) I spoke with the receptionist and asked to be connected with either Mr. Chen or the Radiation Safety Officer. I was connected with Mr. Tall who indicated that he was the RSO. I explained that the purpose behind my call was to determine whether a renewal application had been submitted to the NRC since the license was due to expire on October 31st. Mr. Tall stated that it was the intention of the licensee to renew the license and that an application would be sent in next week. I informed Mr. Tall that if an application was not received by the end of the month that the license application would be treated as for a new license and the applicant feed as appropriate. I also informed him that there would be no fees if the action was processed as a renewal so it was in the best interest of the licensee to get the application in to the Region I office as soon as possible. I asked Mr. Tall how long he has been acting in the role of RSO and he stated two years when the previous RSO left the employ of the company.
