William P. Reichhold
Materials Licensing Branch
United States Nuclear Regulatory Commission
Region III
2443 Warrenville Road, Suite 210
Lisle, Illinois 60532-4352

Dear Mr. Reichhold:

This letter is a notification of personnel change at TSi Engineering, Inc. (TSi), NRC license number: 24-32205-01, docket number: 030-35197.

I'm writing this letter to inform you that Robert Tarver will no longer be the Assistant Radiation Safety Officer for TSi Engineering, Inc. This personnel change is effective immediately.

The new Assistant Radiation Safety Officer for TSi Engineering, Inc. will be Mr. James Atkinson.

I have attached copies of Mr. Atkinson's original Nuclear Gauges Safety Training and RSO Training Certificate, along with a brief introduction of his experience.

Please make this change and send us a new Amendment (No. 8) in the name of Mr. Carlos A. Villarreal for our records.

Sincerely,

Carlos Villarreal
Radiation Safety Officer

Attachment: James Atkinson's certificate
James Atkinson's experience

PROFESSIONAL SERVICE SINCE 1989

September 21, 2012

To whomever it may concern:

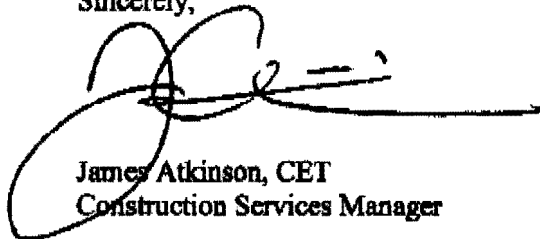

During the course of my employment prior to coming to TSi Engineering (TSi), I have spent 15 years working in the field as an Engineering Technician and Field Services Manager. I originally received the operator safety training from Humboldt Scientific in 1997 and have completed the recommended refresher training on an annual basis.

While performing my duties as the Field Services Manager, I assisted the acting RSO in making sure the staff was complying with NRC and DOT regulations for nuke gauge safety, transportation, operation and security. I have spent a great deal of time over the past 10-15 years training others how to properly secure, store, transport and use the portable nuclear gauges. While serving as the Field Services Manager at my previous employer, I would make periodic audits of log books, gauge security, transportation procedures, and operation and use of the gauges. When activities were witnessed that were deficient, corrective action was taken by myself to retrain the operator and emphasize once again the importance of the correct security, transportation, operation and safety while using the gauges.

Upon coming to TSi and taking on the position of the RSO in the Kansas City office, I received the RSO training from APNGA.

Copies of all my original certifications are attached.

Sincerely,

James Atkinson, CET
Construction Services Manager

Attachments: Humboldt Scientific Operator Safety Training Certificate, APNGA RSO Training Certificate

NUCLEAR GAGE TRAINING CERTIFICATION

JAMES A. ATKINSON

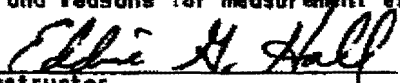

**HAS SUCCESSFULLY COMPLETED A CERTIFIED COURSE ON
RADIATION SAFETY, TRANSPORT AND OPERATION OF
INSTRUMENTS USING GAMMA AND NEUTRON RADIATION
TO MEASURE THE PHYSICAL PROPERTIES OF
CONSTRUCTION MATERIALS**

Subjects included were:

Types and basic units of ionizing radiation.
Calculations related to radiation safety.
Biological effects of radiation.
Methods of protection.
Leak testing procedures.
Procedures for safe transport and storage.
Federal and State Regulations.

Accident prevention and procedures.
Instrument theory and operation.
Limitations of field maintenance.
Instrument standardization and calibration.
Test site selection and preparation.
Field operation and calculations.
Types and reasons for measurement errors.

Date of Training: OCTOBER 8, 1997
Location: KANSAS CITY, MO.
Certificate Number: 1039
