Dennis

Thanks for keeping me "in the loop".

As long as the delay is only a few days, that is ok with Entergy but we agree that we need to get a response from NMFS on what they mean by that (a day or two is fine but after that...), especially given your schedule and the holiday.

Thanks again

Dara,

Very good. E-mail will be fine. I will be working from home Thursday and can call you if you need to discuss anything. I'll be checking voice- and e-mails regularly.

Dennis

Hi Dennis

I will get you an answer tomorrow.

Subject: FW: Draft Indian point opinion

Dara

Julie would like more time to finish the draft biological opinion.

I have some concern if by "towards the end of that week" she means Friday close of business. Both Entergy and NRC need time to comment and get back to NMFS in time that NMFS can then incorporate the comments and produce the final. I will be out of the office the week of November 12 to 16, and that put some time constraints on our review here at NRC.

I think that for NRC, a delay of only a day or two would make little difference.

I plan to express the concern above to NMFS. Do you have any further concerns with NMFS proposed delay?

Dennis

Hi Dennis

We are making good progress on internal review of the draft opinion for Indian point - we had told you we would have it to you on oct 22 but it is looking like it will be more towards the end of that week. Just wanted to let you know. I think we have enough time built in after that (final due nov 28) that meeting the final date will not be a problem. Let me know if you have any concerns

Julie
