MEETING REPORT

DATE: October 4, 2012

TIME: 1:30 p.m. – 3:30 p.m.

PLACE: U.S. Nuclear Regulatory Commission
Two White Flint North, Rockville, Maryland
Room T8C5c

PURPOSE: Discussion of Willow Creek NRC License SUA-1341 Draft License Conditions

ATTENDEES: SEE ATTACHED ATTENDEE LIST (Attachment 1)

BACKGROUND:

The purpose of this meeting was for representatives of Uranium One, Inc. (Uranium One) to discuss draft license conditions for NRC Materials License SUA-1341 as part of the license renewal process. This meeting was publicly announced on NRC's public webpage on September 21, 2012 (Agencywide Documents Access and Management System [ADAMS] No. ML12264A305). The meeting started at 1:30 p.m. eastern daylight time in NRC White Flint North, 11545 Rockville Pike, Rockville, MD, Room T8C5c. Participants introduced themselves.

DISCUSSION:

The participants discussed the following License Conditions (LC):

- LC 9.8. Uranium One staff does not agree with the clause in LC 9.8, "regardless of the intent to release these items for unrestricted use." Uranium One is concerned that since header houses have now become restricted areas, movement from header houses to header houses and to other areas in wellfields will be a burden on their staff since all surveys for unrestricted use need to be performed by a Radiation Safety Officer or Radiation Safety Technician. Uranium One stated that agreeing to this condition sets them up for a violation. NRC staff indicated that Uranium One may develop a contamination control program that addresses many of these issues and still complies with Regulatory Guide 8.30 that Uranium One has already agreed to follow LC 9.12. NRC staff and Uranium One staff did not reach agreement on this issue. NRC staff will further discuss this issue with NRC management and respond to Uranium One.
- LC 9.12. Uranium One and NRC staff briefly discussed this license condition. Uranium One has no additional comments beyond those submitted to NRC staff on October 3, 2012 (ML12278A231).
- LC 11.3. Uranium One and NRC staff briefly discussed this license condition. Uranium One has no additional comments beyond those submitted to NRC staff on October 3, 2012 (ML12278A231).

Enclosure

LC 11.5. Uranium One and NRC staff briefly discussed this license condition. Uranium One has no additional comments beyond those submitted to NRC staff on October 3, 2012 (ML12278A231).

PUBLIC DISCUSSION:

There were no members of the public in attendance.

ACTION ITEMS:

NRC will provide a summary of the meeting. The meeting and teleconference ended at approximately 2:15 p.m.
