Subject: Barbourville Testing Laboratory Change of Telephone No.
(NOTE: This will be used as the Documents Title in ADAMS)

Clarence Jenkins, Senior Accountant, NRC Headquarters, notified the Region I Office that the contact telephone number for Barbourville Testing Laboratory was out of service and provided a new telephone number. I contacted Mr. Glenn A. Christy at the telephone number provided by Mr. Jenkins. Mr. Christy: 1) confirmed that 304-522-7077 was the new office number; 2) that his company/licensed activities are merging with another company; and 3) the licensed gauges are still safely and securely stored at his facilities located in Huntington, WV. Mr. Christy asked what documentation does NRC need to process a potential merger and license name change. I stated that I would email him a list of questions regarding changes in ownership of license activities. He stated that he would provide answers to those questions when he submits a license amendment request.

Actions Required: 1) R. Ragland will update NRC records for Barbourville Testing Laboratory, Inc. to include the new office telephone number; and 2) Will send Mr. Christy a list of questions regarding changes of ownership for license activities.
