Dennis Lawyer, R1, DNMS

Telephone No. 240-402-2105

Subject: RAI, October 15 letter response and FA

(NOTE: This will be used as the Documents Title in ADAMS)

I called Mr. Spady and asked for some clarification. He had not asked nor supplied training information for Mr. Doob. He said to not include Mr. Doob as an authorized user. He had not submitted any name for authorized users for sulfur 35 or phosphorus 33. He said to include him as the only authorized user of that material. I stated that one of the authorized users asked for calcium 45. He said to not add calcium 45 on the license. I then stated that I needed a statement of the qualification of instructors, frequency of training and assessment of training. This was requested in letter dated August 29, 2012 on the last sentence. He would submit that in a letter. I discussed about returning financial assurance documents and that I would need evidence that the facility no longer needed financial assurance. We discussed that he had removed most radioactive waste and the laboratories were releasable. He is going to submit a statement and surveys of the areas to show that financial assurance is no longer needed. I gave him the facsimile information and stated that I had a due date of November 7.

Action Required: Mr. Spady will submit training information and surveys to show financial assurance is no longer needed.
