SUBJECT: REVIEW OF CALENDAR YEAR 2011 CONFIGURATION CHANGES,  
INTEGRATED SAFETY ANALYSIS, SAFETY DEMONSTRATION REPORT  
CHANGES, HONEYWELL METROPOLIS WORKS

Dear Mr. Smith:

By letter dated January 20, 2012 (Agencywide Documents Access Management System [ADAMS] Accession No. ML1203A112), Honeywell Metropolis Works (MTW) provided its configuration changes, Integrated Safety Analysis (ISA) and safety demonstration report changes made to its facility during Calendar Year 2011 (ADAMS Accession No. ML12030A111), as required by Honeywell Material License Condition (LC)-20 (ADAMS Accession No. ML113260381). LC-20 was imposed by the U.S. Nuclear Regulatory Commission (NRC) via a letter dated May 11, 2007 (ADAMS Accession No. ML062140705); and it requires Honeywell to submit all changes that affect the MTW ISA to the NRC for review within 30 days after the end of the calendar year in which the changes, either a revised ISA or revised ISA pages, as appropriate, were implemented.

The staff has reviewed the changes that Honeywell provided for Calendar Year 2011, and has no questions or comments at this time. The staff may reevaluate the information Honeywell has provided if conditions at the facility change.

In accordance with Title 10 of the *Code of Federal Regulations* (10 CFR), Section 2.390 of the NRC's Rules of Practice, a copy of this letter will be available electronically from the Publicly Available Records System component of NRC's ADAMS. ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.
