OCT 15 2012

Ray Carlson
Radiological Physics Service
3839 Napier Road
Plymouth, MI 48170

SUBJECT: TERMINATION OF NRC RADIOACTIVE MATERIALS LICENSE 21-32486-01

Dear Mr. Carlson:

In "Certificate of Disposition of Materials" received July 19, 2012 and July 23, 2012, the U.S. Nuclear Regulatory Commission was contacted with a request to terminate the NRC radioactive material license of Downriver Medicine Associates, PLC. The NRC staff has reviewed the final status surveys performed by Mr. Ray Carlson on September 9, 2011 and based on its review; the staff has concluded that all licensable radioactive material has been removed from the facility and no residual radioactive material attributable to licensed activities remains. Therefore, based on these conclusions, NRC license number 21-32486-01 is hereby terminated.

The terminated license and this letter is being sent to you based on our telephone conversation of October 8, 2012, because the owner of Downriver Medicine Associates, PLC is not available and there is no one at the former place of use or at the Post Office Box listed on the license who can received this correspondence. It is my understanding that you will forward this correspondence to the individual who was previously listed as radiation safety officer.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

If you have any questions, please contact me at (630) 829-9842.

Sincerely,

A handwritten signature in cursive script, appearing to read "Toye L. Simmons".
