SUMMARY

Renewal

Telephone conversation with Mr. Paul Larson (RSO). Discussed the application dated April 17, 2012 and noted that references were made to several procedures in Appendices to "NUREG-1556, Vol. 11, "Program-Specific Guidance About Licenses of Broad Scope," dated April 1999" (i.e., survey instruments, material receipt and accountability, occupational dosimetry, survey, and waste management). Further it was discussed that some of the Appendices references corresponded to NUREG 1556, Vol. 7. and not to Vol. 11. Mr. Larson indicated that this was an oversight and some confusion because of the type of license that they possess, in which they approve users, etc. We discussed that the license is primarily a research and development license with the authorization to select users. Mr. Larson indicated that the references should have been to the Appendices to "NUREG-1556, Vol. 7, "Program-Specific Guidance About Academic, Research and Development, and Other Licenses of Limited Scope," dated December 1999," and that he will provide a letter stating this information.

REQUESTED ACTION:

Provide your response and indicate that it is in reference to **MAIL CONTROL NO.577411**. Please note that if you provide your **response as an e-mail**, you must provide a **signed and dated PDF copy**. If you have any questions regarding the information requested above, please contact me at (630) 829-9830 or e-mail Cassandra.Frazier@nrc.gov.
