Glen Allen, VA 23060-6711

**SUBJECT: NORTH ANNA POWER STATION – NOTIFICATION OF LICENSED  
OPERATOR RETAKE INITIAL EXAMINATION – 05000338/2012302 AND  
05000339/2012302**

Dear Mr. Heacock:

In a telephone conversation on October 24, 2012, between Mr. Joe Scott, Supervisor, Supervisor Operations Training, and Ms. Amanda Toth, Operations Engineer, arrangements were made for the administration of retake licensing examinations at North Anna Power Station. The on-site preparatory week and the administration of the administrative topics portion and control room/in-plant systems portion of the operating test is scheduled for the week of December 17, 2012.

As agreed during the telephone conversation, your staff will prepare the administrative topics portion and control room/in-plant systems portion of the operating test based on the guidelines in Revision 9, Supplement 1, of NUREG-1021, "Operator Licensing Examination Standards for Power Reactors." The U.S. Nuclear Regulatory Commission (NRC) regional office will discuss with your staff any changes that might be necessary before the examinations are administered. Your staff has also agreed to make copies of all examination materials that are necessary for administering the examination.

To meet the above schedule, it will be necessary for your staff to furnish the operating test outlines, operating tests, and the supporting reference materials identified in Attachment 3 to ES-201 by November 19, 2012. Pursuant to Title 10, Section 55.40(b)(3), of the Code of Federal Regulations (10 CFR 55.40(b)(3)), an authorized representative of the facility licensee shall approve the outlines and tests before they are submitted to the NRC for review and approval. All materials shall be complete and ready-to-use.

We request that any personal, proprietary, sensitive unclassified, or safeguards information in your response be contained in a separate enclosure and appropriately marked. Any delay in receiving the required examination and reference materials, or the submittal of inadequate or incomplete materials, may cause the examinations to be rescheduled.

In order to conduct the requested written examinations and operating tests, it will be necessary for your staff to provide adequate space and accommodations in accordance with ES-402, and to make the simulation facility available on the dates noted above.

Appendix E of NUREG-1021 contains a number of NRC policies and guidelines that will be in effect while the operating tests are being administered.

To permit timely NRC review and evaluation, your staff should submit preliminary senior reactor operator license applications, including waiver requests, and medical certifications by November 19, 2012. Signed applications certifying that all training has been completed should be submitted by December 7, 2012.

This letter contains information collections that are subject to the *Paperwork Reduction Act of 1995* (44 U.S.C. 3501 et seq.). These information collections were approved by the Office of Management and Budget (OMB) under approval number 3150-0018, which expires on February 28, 2013. The public reporting burden for this collection of information is estimated to average 500 hours per response, including the time for reviewing instructions, gathering and maintaining the data needed, writing the examinations, and completing and reviewing the collection of information. Send comments on any aspect of this collection of information, including suggestions for reducing the burden, to the Information and Records Management Branch (T-6 F33), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or by Internet electronic mail at [infocollectsresource@nrc.gov](mailto:infocollectsresource@nrc.gov); and to the Desk Officer, Office of Information and Regulatory Affairs, NEOB-10202, (3150-0018), Office of Management and Budget, Washington, DC 20503.

The NRC may neither conduct nor sponsor, and a person is not required to respond to, an information collection, unless it displays a currently valid OMB control number.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of the NRC's document system (ADAMS). ADAMS is accessible from the NRC Website at <http://www.nrc.gov/reading-rm.adams.html> (the Public Electronic Reading Room).

Thank you for your cooperation in this matter. Mr. Joe Scott has been advised of the policies and guidelines referenced in this letter. If you have any questions regarding the NRC's examination procedures and guidelines, please contact Ms. Amanda Toth at (404) 997-4520, (Internet E-mail: [Amanda.Toth@nrc.gov](mailto:Amanda.Toth@nrc.gov)), or me at (404) 997-4436, (Internet E-mail: [Mark.Franke@nrc.gov](mailto:Mark.Franke@nrc.gov)).

Sincerely,

/RA/

Mark E. Franke, Chief  
Operations Branch 2  
Division of Reactor Safety
