REF: License Renewal Application  
License No. 24-20197-01  
Control No. 577606

Dear Ms. Bishop;

This will confirm the response to some of the application items:

- Appendix Pg. B-1 Items 5 & 6  
Device Models - we currently only have the Cambell Pacific MC Series. The other meters can be deleted. If we obtain a different manufacturer device we will amend the license.
- Pg. B-3 Item 7  
Radiation Safety Office - It is my understanding that if the RSO changes then training will be necessary.
- Pg. B-3 Item 10  
Survey Instruments - It is our intent to purchase or have access to a survey meter to comply with the regulation.

I hope this covers the questions we discussed. If there are further questions feel free to contact me.

Respectfully Submitted;

*Carl J. Muench*  
Carl J. Muench, P.E.
