Ms. Toye Simmons
U.S. Nuclear Regulatory Commission, Region III
Nuclear Materials Licensing Section
2443 Warrenville Road, Suite 210
Lisle, IL 60532-4352

Dear Ms. Simmons:

In accordance with our recent telephone conversation regarding Pharmacia & Upjohn Company LLC's request dated September 24, 2012 to amend its NRC byproduct material license 21-00182-03, this letter confirms that only radioactive fixed gauges were ever used at the 2605 East Kilgore Road location. All fixed gauges have been removed from this location and properly transferred or disposed of in accordance with the applicable regulations. Historical routine contamination leak test results of the fixed gauges possessed at this location confirm that none of these fixed gauges leaked or caused the facility to be contaminated.

Please feel free to contact me should you require any additional information in order to remove this location from the license.

Sincerely,

A handwritten signature in black ink, appearing to read "Timothy L. Popp".

Timothy L. Popp
Radiation Safety Officer
