Rockville, MD 20852

DOCKETED
USNRC

October 26, 2012 (10:00 a.m.)

OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

Dear Director Diaz

How can you justify granting another 20 year lease to the Indian Point Facility? Simply on the basis of so much nuclear waste stored so close to millions of people it should be shut immediately. It is TOO OLD and lacks proper security. It is inefficient, has not run at full potential for years. It is a disaster in waiting!

Reflecting on Japan's tragedy, the loss of life and environmental damage would be even greater. There are no viable alternatives. Seal it off now.

Please

Maureen Murphy
