Subject: Open Items Mtg with DTE / Fermi 3 COLA November 1, 2012

Dear Tekia Govan,
Project Manager Licensing Branch 3
Division of New Reactor Licensing
Office of New Reactors

With regards to the meeting scheduled for November 1, 2012 with DTE, it is my understanding that there will be some 30 participants. In the past the microphones and audio pick-up of meetings of this nature are very difficult to hear and understand over the phone. This is compounded by soft spoken participants, many with english as a second language. I am requesting that the room be properly miked so as to provide optimal Teleconference listening and participation.

As this has potential of being a lengthy meeting I am requesting on behalf of the public that the NRC have full recordation of the meeting so as to preserve the meeting content. On behalf of the public and as legal intervenors in the Fermi 3 COLA proceedings I am requesting transcription of the meeting and audio recording of the meeting.

I also look forward to ML#s for participant presentations.

Thank you
Michael J. Keegan
