

October 30, 2012

Mr. Elmo Collins, Regional Administrator, Region IV
U.S. Nuclear Regulatory Commission
612 East Lamar Blvd.
Arlington, TX 76011-4511

**Subject: Docket Nos. 50-361, 50-362 and 72-41
Response to Notice of Violation; EA-12-083 – Notification of
Readiness for Supplemental Inspection 95001
San Onofre Nuclear Generating Station, Units 2 and 3, and
Independent Spent Fuel Storage Installation**

Reference: Letter from Mr. Thomas Blount (NRC) to Mr. Peter Dietrich (SCE) dated
11 June 2012, NRC Inspection Report 05000361/2012403;
0500362/2012403; Preliminary Greater Than Green Finding; and Exercise
of Discretion

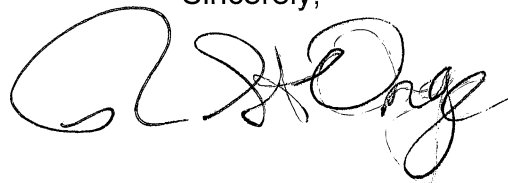

Dear Mr. Collins:

Nuclear Regulatory Commission (NRC) Inspection Report 2012-403, dated 11 June 2012, identified a preliminary Greater than Green finding. As requested by the NRC, Southern California Edison (SCE) is notifying the NRC that San Onofre Nuclear Generating Station is ready for the Supplemental Inspection 95001.

There are no new regulatory commitments made by this letter or its enclosures.

If you have any questions regarding this matter, please contact Mr. Ryan Treadway at (949) 368-9985.

Sincerely,
