Myself and Tony Gody spoke with the allegor on May 24, 2006, to clarify Concern 4 and discuss two additional concerns. I relayed all Concerns (1-8) to the allegor. The allegor did not object to any of the concerns, but noted that Concern 6 was more like 20-30 individuals (that had regular contact with the (b)(7)(C) instead of 30-40.

The allegor also Clarified Concern 4. Based on conversations with (b)(7)(C)

When asked if there was a violation of the requalification process, the allegor stated no.

The allegor felt that the grading standard (not the exam) was (b)(7)(C)

The allegor also stated that 3 times was unprecedented at the site, although the site's standard was higher than NRC's standard.
