Project Number: 689

Dear Mr. Lewis:

The Nuclear Energy Institute (NEI) and an industry task force have developed and are seeking NRC review and comment on NEI 12-10, "Guideline for Developing a Licensee Protective Action Recommendation Procedure Using NUREG-0654 Supplement 3," Revision 0, dated October 2012.

To facilitate your review, a copy of NEI 12-10, Revision 0, dated October 2012 is attached.

This guidance provides a Protective Action Recommendation (PAR) strategy development tool for use by licensees, in collaboration with Offsite Response Organizations. The guide establishes a consistent methodology for nuclear power industry licensees to utilize Supplement 3 guidance for site-specific PAR development.
