Lionel Rodriguez

Response: Updates for License No. 24-15595-01

Dear Mr. Rodriguez & Mr. LaFranzo:

This letter serves as Aptuit, LLC's notification to the NRC in accordance with 10 CFR § 30.36(d) that we have permanently ceased principal activities and will begin decommissioning activities. Aptuit will continue to dispose of waste and equipment (material) as part of our decommissioning. Aptuit will continue to limit actions involving radioactive material to those related to decommissioning. Entry to restricted areas will continue to be controlled until the areas are suitable for release.

Aptuit will not consider any of the documents listed in our Decommissioning Plan as proprietary information.

Please inform Aptuit if the NRC identifies any items or additional information requests while conducting the technical review of the Decommissioning Plan that was submitted to the NRC on August 30, 2012. This will allow Aptuit to start working on providing the NRC additional information before the full technical review is complete.

Please let me know if I can be on any additional assistance. I can be reached at (816)767-3745 or by cell at (816)769-4382.

Sincerely,

Clint Gregg

Radiation Safety Officer
