Dear Ms. Lennon:

Enclosed is Amendment No. 09 to your NRC Material License No. 13-26797-01 in accordance with your request. Please note that the major changes made to your license are printed in **bold** font.

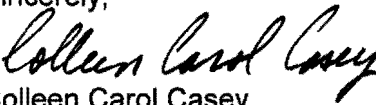

This also refers to the NRC Form 314 "Certificate of Disposition" dated July 19, 2012, and the letters dated July 29, 2012, August 28, 2012, and October 19, 2012, concerning the request to terminate license number 13-26797-01.

The NRC staff has reviewed the final status surveys submitted for license number 13-26797-01. Based on its review, the staff has concluded that all licensable radioactive material has been removed from that facility and residual radioactive material attributable to licensed activities does not exceed current NRC criteria.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.
